What is on the menu...CONTEXT!

By Correy Watkins & Caryn Ward
NIRN Implementation Specialists

An essential component of implementation efforts is partners effectively working together. This is easier said than done. The relationships that we have are a direct reflection of learned experiences over periods of time.

Interactive Lesson

After completing this lesson about understanding context, you will be able to explain why context is important, solicit information from a variety of perspectives, identify contextual barriers and assets, and engage in continuous problem-solving efforts/mitigating strategies.

Updated Guidance for Engaging Critical Perspectives

After completing this lesson about understanding context, you will be able to explain why context is important, solicit information from a variety of perspectives, identify contextual barriers and assets, and engage in continuous problem-solving efforts/mitigating strategies.

Free Webinar

Critical Perspective Engagement

Tuesday, January 24th @ 3:00 PM ET

SISEP recently updated the "Stakeholder Engagement" guidance documents to the "Guidance for Engaging Critical Perspectives." This webinar will allow participants to learn more about the why behind the shifts, the changes made, and how to utilize the tools embedded within the document. Participants will be asked to provide feedback and have early access to an accompanying brief. Suggested audience: Implementation Specialists, Implementation Team members, Leaders, and Champions.

Making sense of complexity in context and implementation: the Context and Implementation of Complex Interventions (CICI) framework

"The effectiveness of complex interventions, as well as their success in reaching relevant populations, is critically influenced by their implementation in a given context. Current conceptual frameworks often fail to address context and implementation in an integrated way and where addressed, they tend to focus on organizational context and are mostly concerned with specific health fields. Our objective was to develop a framework to facilitate the structured and comprehensive conceptualization and

assessment of context and implementation of complex interventions."
